CHARGING FRAUD AGAINST M'ALEER.

Ex-Gov. Foster Desirons of Re-Entering Public Life .- Tobacco Tax Rebate to Be Considered To Morrow.

At 2 o'clock this afternoon the Republicans in the Senate bucked up against the Force bill again and proceeded on the course which they have decided to adopt, despite the fact that | fingpublic sentiment is against them. There was only one new feature in the day's talk about this bill, and it had reference. to the action of the Farmers' Alliance yesterday in declaring against it. That action had some effect, but only in a general way. The men who took it represent so many voters that it could not but have some influence.

This is especially the case with the Western and Northwestern men. They are not yet pledged to the bill and that they may yet kick over the traces is by no means an improbability. But the Republican leaders do not allow this to disturb them. They are going right ahead with their scheme. It may, however, be that public sentiment will be so strongly developed, that they may heed it and call off their dogs.

Notwithstanding all this, there seems to be no doubt but that the Force bill will at least pass the Senate. That will, of course, involve a change in the rules, whereby 'Senatorial courtesy' will receive a very painful sprain.

The following bills were introduced in the Senate to day and referred: By Mr. Paddeck, for a permanent tariff commission; by Mr. Stewart, for the free and unlimited use of allver as

Judge Seney of Ohlo appeared in his cent for the first time this morning. The Buckeye statesman says there is a grest deal of talk among the Ohio Re-publicans of nominating Major McKinley for Governor.
